

Muhammad Temirsultanov

Frontend-developer (trainee-junior)

General

Muhammad, 20 years old. I have a freelance experience in markup-writing: landings, multipage sites, edits, animations, optimizations etc.

Skills

- HTML, CSS: fluent
- Javascript: high level due reading 2 part and some chapters of the javascript.info
- Vue: middle level due reading ~70% of documentation and course by Ilya Klimov
- Git: typical basic usage — init, commit, push, pull, checkout, status etc.
- Touched: React, Angular, Python, PHP
- SQL: the ability to write regular sql-queries “with JOINS”
- TCP/IP and how the Internet works: ~high level for a frontend developer due Andrey Sozykin and Cisco CCNA
- English: fluency reading documentation. Learn.js and vue guide were read in english. Grammar and speaking — with difficulties, not fluency.
- Bad: Typescript is just touched. Testing, dev-ops tasks is not touched.

Projects

- Vue pet-project, habit tracker — <https://temirsultanov.github.io/habitracker>
- React-Gatsby single screen website — <https://mozy.gatsbyjs.io>
